ALMAQUIN ENTERPRISES

We specialize in providing comprehensive water and wastewater management solutions that guarantee compliant water for various applications, both domestic and industrial. Our proficiency spans from enhancing remote camp facilities to optimizing water treatment plants, offering services that ensure your facility operates at peak performance.

ON SITE ASSESSMENTS

Whether it's potable water production, camp domestic wastewater or industrial wastewater treatment, we have the expertise to assess existing infrastructure and recommend reliable and proven efficient and effective treatment systems that produce the highest quality water output.

EXPERT TECHNICAL WRITING

Our consultants provide articulate technical RFPs and proposal responses to wastewater treatment and dewatering opportunities using clear and concise wording to address our client's specific needs and maximize evaluation criteria scoring.

COMMISSIONING AND TRAINING

We simplify the commissioning process and offer comprehensive training and documentation for your team, making sure your operators are well-prepared for day-to-day operations.

PERMITTING

We offer guidance with managing all requirements from the regulatory authorities, streamlining the process and facilitating Permit to Divert Water and / or Approval to Discharge.

ALMAQUIN ENTERPRISES

At Almaquin, we are proud of our ability to enhance camp facilities through our water and wastewater technical expertise. We can help you achieve optimal water and wastewater management in even the most remote locations. Contact us today to discuss your specific needs and let us show you how we can make a positive impact on your camp facilities.

ACCURATE LABORATORY ANALYSIS AND REPORTING

Our professionals methodically collect water samples and conduct comprehensive laboratory analysis. With a keen eye for detail and in-depth knowledge, we interpret the results to provide you with accurate and actionable insights, empowering you to make informed decisions about your water treatment needs.

TROUBLESHOOTING AND REPAIR

We coordinate with trusted contractors for regular inspections and calibrations, maintaining the performance of your essential equipment. We leverage our expertise to keep your water treatment systems running smoothly and optimally, minimizing downtime and ensuring uninterrupted operations.

TRUSTWORTHY PARTNER

Our reputation in the industry is built on expertise, reliability, and a commitment to excellence. We ensure seamless transitions to new service providers and perform thorough field operations in remote locations.

PROJECT MANAGEMENT

Almaquin's consultants have extensive experience in project management that are adept at overseeing the entire project lifecycle. With our comprehensive approach, your project execution becomes efficient and effective.
